

*Dental Care Ireland  
provides the support and  
encouragement to help  
people and practices  
reach their full  
potential.*

"Selling my dental practice to DCI was a seamless experience. Their professionalism ensured a smooth transition, and I'm thrilled to see the practice continuing to thrive under their management. I highly recommend DCI to any dentist considering a practice transition."

- Dr Pat Hartnett, Mayfield, Co. Cork

## Who we are

Dental Care Ireland is a network of established, family dental practices nationwide.

We work with high quality practices across the country in order to free principal dentists from administrative burden, thus allowing them to focus on clinical dentistry. We are extremely sensitive to clinical freedom and the traditions of each local practice. Our focus is to grow and develop existing practices so they can reach their full potential.

### Colm Davitt

Co-Founder and CEO Colm Davitt is the former CEO of a leading diagnostic imaging group.

Colm has a wealth of experience in the healthcare sector and in acquisitions and in particular in business growth.

### Dr Jennifer Collins

Dr Jennifer Collins joined Dental Care Ireland in 2019 as Lead General Dentist at Northumberland Dental Care.

In addition to this role, she provides clinical support and training to clinicians across the Dental Care Ireland group as Clinical Director.

### Dr Gina Kilfeather

Dr. Gina Kilfeather serves as the Orthodontic Clinical Advisor at Dental Care Ireland,

offering vital support and training to clinicians network-wide.

"Selling my practice to Dental Care Ireland and merging into Northumberland Dental Care was seamless and incredibly positive. Their professionalism and dedication ensured a smooth transition, and I'm delighted to see the continued success of our combined practice. I highly recommend Dental Care Ireland and Northumberland Dental Care to any dentist considering a similar move."

## The Benefits of Joining Dental Care Ireland

Dental Care Ireland offers an attractive proposition for dentists interested in selling their practices. Whatever the reason that you have to sell your practice, whether it's a managed retirement plan or to focus on your patients or your career, we will work with you to enable you to realise your goals. We value each individual who works with us and provide the support and encouragement to help people and practices reach their full potential.

Our model eliminates the stress associated with the running of a business. We do require any principal dentist to remain with the practice for an agreed period of time into the future and we generally prefer larger practices which have a minimum of three chairs. Our aim is to have a national network right across the country so we are open to considering all locations if the opportunity is right.

From our head office in Clontarf in Dublin, we provide support in Operations, Finance, Quality and Compliance, Information Technology, Human Resources and Marketing. All of these functions are in place to support the growth and development of our practices and to ensure a high level of consistent service for patients across our entire group.

"I joined Dental Care Ireland in July 2017 and they have done absolutely everything that was promised. The practice has undergone a major revamp and investment in new equipment. I am very happy with my decision and now really love focusing on my dentistry."

**-Dr Gerard Kilfeather, Greystones, Co. Wicklow**

## Locations

We have continued to expand our portfolio extensively over the last number of years and now have a presence in all four provinces of Ireland.

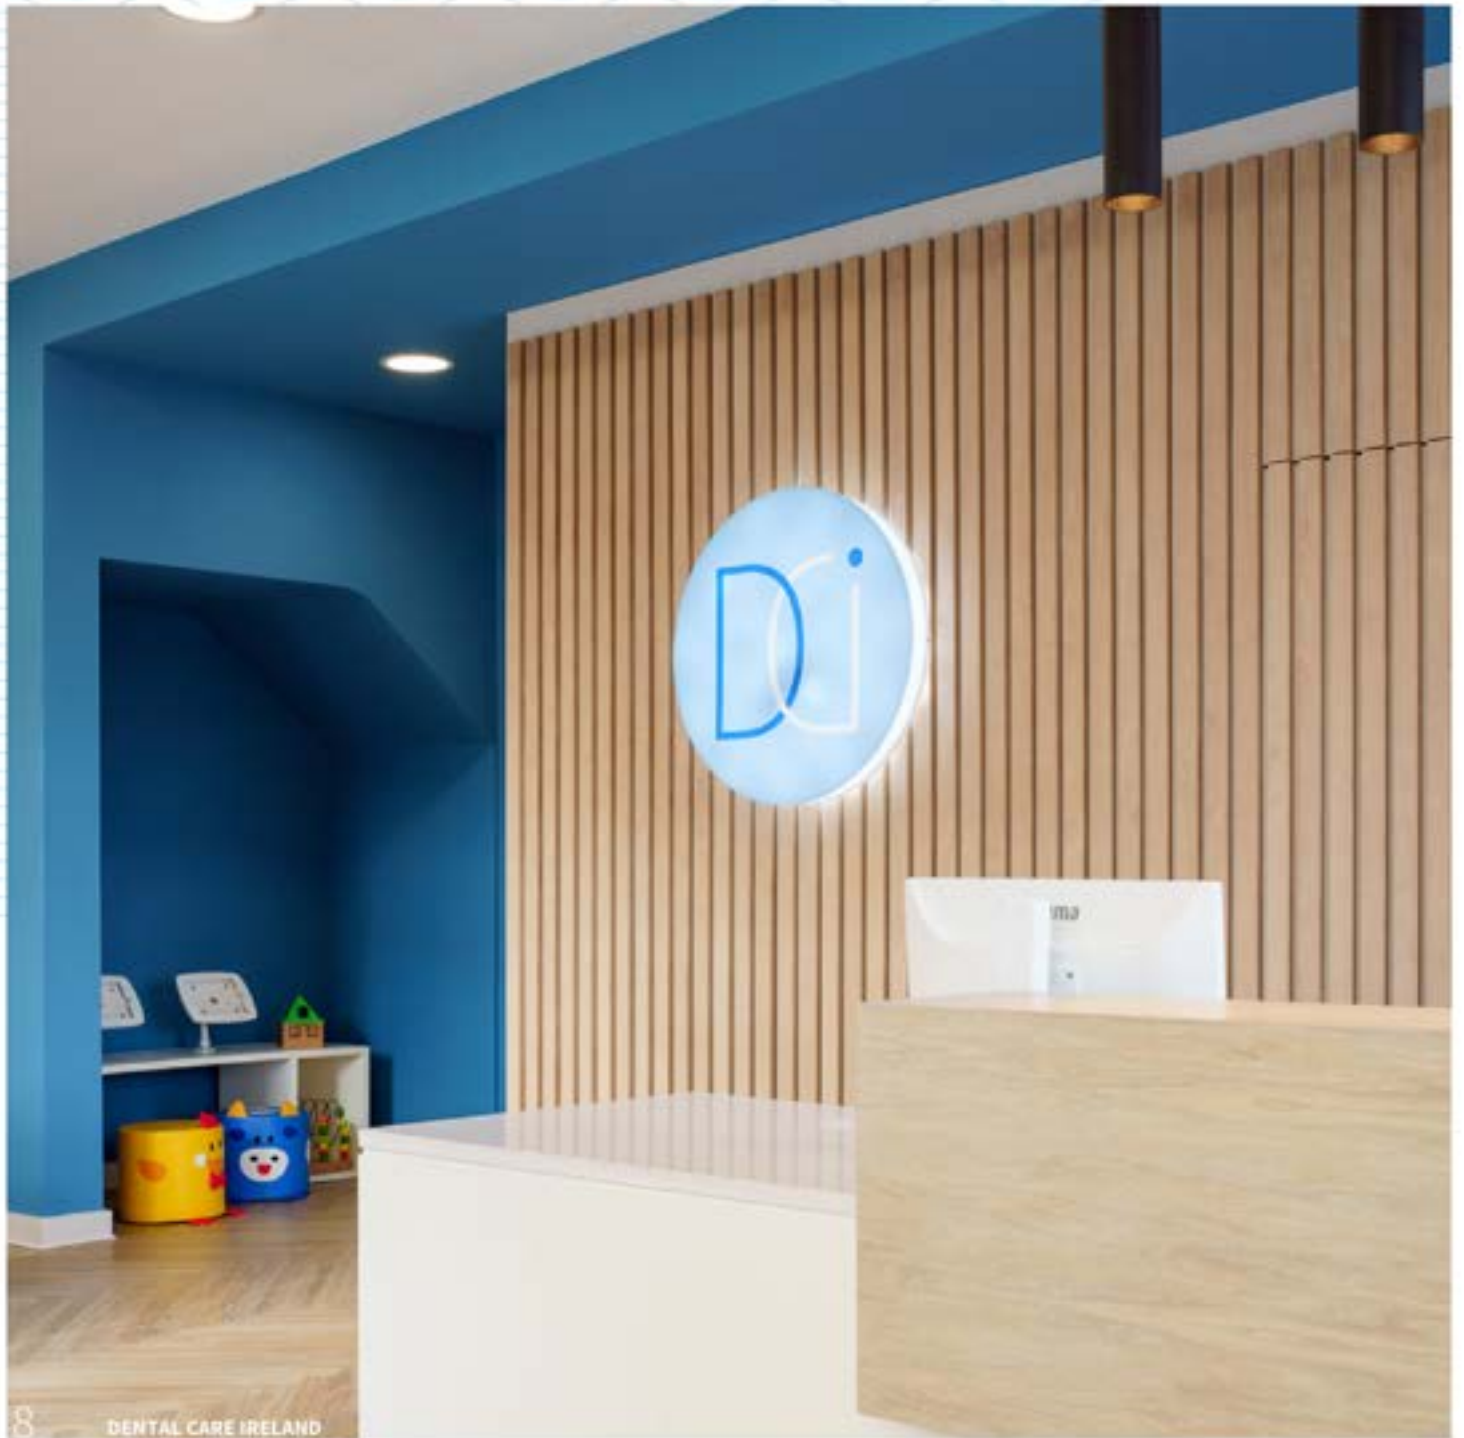

Each of our locations are growing strongly with stable and committed teams in place.

Currently, we have over 500 team members across the entire organisation.

## Practices

Our practices are designed to the very highest standards. We work with the best architects and interior designers to ensure a high-end finish throughout the waiting and surgical areas to ensure the patients are comfortable and our team is happy.

We use the best technology available to enable us to build accurate databases of our patients and deliver the very best treatment solutions available.

We are keen supporters of education and training and are open to the development of new treatments and services within the Dental Care Ireland network.

"I joined Dental Care Ireland in January 2018 and am really happy with my decision. The practice has become much busier over the last year and I also have a real work life balance. The transaction with Dental Care Ireland was very smooth and since then all of the dentists and staff have remained with the practice. I'd be happy to recommend Dental Care Ireland for those that wish to continue to enjoy their dentistry with less management burden."

**-Dr Martin McCarthy, Co. Galway**

## Our People

Dental Care Ireland prides itself in the provision of high-quality general and specialist dentistry. We are committed to offering the highest standards of dental care delivered by highly skilled, qualified, approachable and trusted dentists.

All our dentists are registered with the Dental Council of Ireland.

"I have been working with Colm and all of the team at Dental Care Ireland since May 2015. I have thoroughly enjoyed my dentistry over the last three years. I have always found Colm & Kieran to be completely trustworthy and supportive. Our practice in Knocklyon has now almost doubled in size following a significant investment and expansion in 2016."
